

Clinch-On® CORNERBEAD COMPANY

A Division of Continuous Coating Corp.

Attn:

Job Site:

All standard cornerbead and trims manufactured by Clinch-On® Cornerbead Company are produced from American made steel that is electro (galvanized) zinc plated for corrosion resistance and Bonderized for joint compound adhesion. To the best of our knowledge, our cornerbead conforms to all known building codes and meets the federal specification, QQ-Z-3256, Type II, Class 4, ANSI/ASTM/A 591M-98 and ASTM C-1047. Our standard cornerbead may be installed effectively by the Clinch-On® Tool method or by nailing. All paper faced trims manufactured by Clinch-On® Cornerbead Co. meets ASTM-C1047.

<u>ITEM</u>	<u>LENGTHS</u>	<u>APPROX. SHIP WT. kFT</u>
1 1/4" x 1 1/4" Cornerbead	6', 7', 8', 9', 10', 12'	106#'s
